

'I cannot be a teacher without exposing who I am.' –Paulo Freire

UNewHaven Celebrates Teaching with Technology

The CTE in collaboration with the Provost Office and the Bucknall Excellence in Teaching Award Fellow, Dr. Bruno Barreto de Góes would like to encourage you to attend a faculty symposium that showcases how technology has empowered our faculty to become more effective teachers inside and outside the classroom. For the program, check the [CTE page](#).

Symposium Format & Date: In-person in Bergami Center for Science and Technology; Wednesday May 3rd, 2023; 9 am- 2 pm.

Registration is open till April 24th, 2023.

A promotional graphic for the symposium. It features a photograph of a woman with glasses sitting at a desk with a computer monitor. The text is overlaid on the image. At the top, it says 'The Center for Teaching Excellence & The Office of the Provost present:'. Below that, in large yellow font, is 'Celebrating Teaching @UNewHaven'. Underneath, in white, is 'A Faculty Symposium: The Present & Future Role of Technology in Higher Education'. The bottom section of the graphic is yellow and contains details about the symposium format, date, abstract submission deadline, and registration dates. It also includes a paragraph about the challenges of new teaching technologies and a call to action to submit an abstract by March 31st. The bottom of the graphic features the CTE logo and contact information for the center.

Celebrating Teaching @UNewHaven
A Faculty Symposium: The Present & Future Role of
Technology in Higher Education

Symposium Format & Date: In-person; Wednesday May 3rd, 2023; Time 9 am - 2 pm.
Abstract Submission Deadline: March 31st, 2023.
Link for Abstract Submission: <https://forms.office.com/r/ybv7UixVaj>
Registration Dates: March 24th - April 19th.

New teaching technologies are rapidly changing the ways through which knowledge is acquired and disseminated and, consequently, the ways in which professors and students interact. Such changes have greatly contributed to the democratization of knowledge, and along with it have created many unprecedented opportunities and challenges within the education system. Our University's *Bold Path Forward* has also emphasized the fact that our institutional competitiveness now and in years to come will hinge on our ability to select, master, and employ new teaching technologies to more effectively and nimbly meet the demands of our students.

As we brave these new challenges, we recognize that many of our faculty are already employing innovative approaches to the use of technology, which are having a positive impact on our students' learning experiences inside and outside of the classroom. Hence, the goal of this event is to promote and facilitate the sharing of some of these ideas, techniques, and tools, to help us grow together as a community of learners and educators.

With that in mind, the CTE in collaboration with the Provost Office and the Bucknall Excellence in Teaching Award Fellow, Dr. Bruno Barreto de Góes would like to encourage you to submit abstracts for oral or poster presentations describing how technology has empowered you to become a more effective teacher inside and outside the classroom.

To submit an abstract, please fill this form by March 31st: <https://forms.office.com/r/ybv7UixVaj>

What I could do if I only had funding...

Are you wondering what you could do if you had funding? Not to worry! The Center of Teaching Excellence is organizing a panel discussion [on zoom](#), facilitated by our Office of Grants and Sponsored Programs, to give an overview of the grant process and resources available. The ultimate goal is funding success and project implementation benefiting you and your students.

Topics to be covered include

- Funding opportunities related to teaching, assessment, evaluation, and curricular development
- Matching your teaching and research needs with funders' priorities
- Steps to advance from concept to proposal development and submission.

Location: Zoom

Zoom Link: <https://unewhaven.zoom.us/j/8586271601>

Date and Time: Friday, April 28th, 10.30-11.30 am

CTE Events

Open Classroom Program

The Center for Teaching Excellence, is running an **Open Classroom Program** from **April 10 to April 21, 2023**. This program gives faculty the opportunity to visit classrooms to experience different teaching environments and practices, encourage dialogue across departments/programs, and see how learners interact in different settings. The essence of this is to promote reflection and conversation about learning and teaching.

All classes continue as usual – these visits are not for evaluative purposes. Hosts and visitors are encouraged to discuss the experience after the class visits and share learning takeaways.

Thank-a-Prof

The University of New Haven students show appreciation to their instructors who had a positive impact on them this semester! Previous Kudos are posted on the [CTE page](#).

To our students, please fill out this quick **Thank a Professor form** to share your thanks! This is open until April 30, 2023.

Catch Up on our Past Events

Mar 9: Expanding Creative Power through AI:Distributed Cognition in the Classroom: This workshop was to challenge participants to question how to redesign classroom structure and pedagogy to allow for creative use of valuable tools like AI.

Mar 10: ChatGPT- A Discussion about the integration of AI and Education: The workshop covered the overview of ChatGPT by Open AI, AI capabilities, and assessments to preserve academic integrity.

Mar 23: Supporting Student Success Through the Learning Assistant Program: This panel discussion provided insights to these two questions: *what are instructors who have paired with LAs doing? How can instructors integrate LAs into class structure effectively?*

Recordings of all recorded CTE events & corresponding presentation slides can be found on the MyCharger Faculty Resources page, click below to access.

Universal Design for Learning Checklist

The Universal Design for Learning (UDL) curriculum is designed and developed to create equitable, inclusive, and accessible learning. [The Universal Design Learning Checklist](#) (National Center on Accessing the General Curriculum) mirrors the three principles and nine guidelines of UDL. This checklist provides examples of different ways instructors can follow UDL guidelines. The checklist is a framework to optimize teaching and reduce barriers to learning.

Making Microsoft & Adobe Documents Accessible

Document accessibility is vital to audience engagement. CTE has provided a resource for your review: [Accessibility via PowerPoint \(by Dr. Michael Urban, University of New Haven\)](#). In this video, Professor Michael Urban demonstrates the tools to make PowerPoint presentations accessible to all learners. Dr. Urban has also made the presentation slides available to review.
